**#THEMOUNTAINISFREEDOM**

A vertical drop of 1000 meters and a never ending trail. How many times you can ride down in a day? It's a competition against yourself, or against your friends, open to bikes of all kinds: from XC and fatbike to enduro. After the sold-out of the 2015 and 2016 editions, 3K comes back to Carosello 3000 on a route that includes the brand new trail **Bikers United**. **The new trail** combines the flow and enduro features, and will be inaugurated Saturday, June 23, in occasion of the summer opening.

### **Sunday, July 15: Wild Goats E-bike tour experience.**

Ride down into the wonderful and untouched Federia Valley, at the north of Carosello 3000 area, discovering the old trails and the most wonderful landscapes on the border between Italy and Switzerland. An uphill and downhill route, tailor-made for **E-bikers** in one of the less populated and the wildest areas in Italy, to give them an escape from civilization in company of "LivignoBike" guides.

The closing party and the prize-giving will take place on Sunday afternoon. At the village you can have access to test rides during the whole event, or you can simply relax and meet new people, soaking in the typical "mood" of Carosello 3000: **the Mountain is freedom.**
